ZOMBIES VS ROBOTS

Inherit the Earth: The surviving astronauts fought their way free from the Mermen's undersea base, only to find themselves on the island that used to house Amazons and currently plays host to not only a horde of zombies but also assorted robots, both from this world and from the secret moon base above!

The Orphan: After fighting off a pack of mind-controlled, mechanized zombies, Bot-Bot concludes that the Patrol Bot is hunting Rosemary down. Rosemary agrees and thinks they should do the last thing he expects... go after him.
