

THE VISION is a synthezoid—an android composed of synthetic human blood and organs. He was created by Ultron to destroy The Avengers, but instead he turned on his “father,” and he’s been a member of the super hero team ever since.

Recently, The Vision built a synthezoid family for himself—wife VIRGINIA (based on the brain patterns of the Scarlet Witch) and children VIN and VIV (based on a combination of Vision and Virginia’s brain patterns). The four of them are trying their best to live a normal, peaceful life in a Washington, D.C. suburb.

Life in suburbia has been anything but bliss for The Visions. Shortly after settling down, a super villain broke into the family’s home and threatened to destroy them. To protect her children, Virginia was forced to take his life and bury the body in their backyard—a secret she hid from her husband.

Things only escalated when Virginia was blackmailed by a neighbor who witnessed the burial. The ensuing incident led to the accidental death of the blackmailer’s son Chris, a classmate of Viv. Not knowing the extent of his wife’s involvement, Vision chose to lie to the police when questioned about the death in order to keep his family together.

And even now, having learned the truth, Vision has decided that his family, above all, will come first, which Agatha Harkness has warned the Avengers will soon lead to great tragedy: “He will kill you. He will kill your families. He will raze the world.”
