

S.H.I.E.L.D.

MEDICAL LAB

Dear Agent 19:

We regret to inform you that we are no longer able to provide replacement S.H.I.E.L.D. medical beepers, as you have reached your ten [10] replacement limit.

Several letters were sent to this address regarding this matter. Medical beeper cards are expensive, state-of-the-art technology.

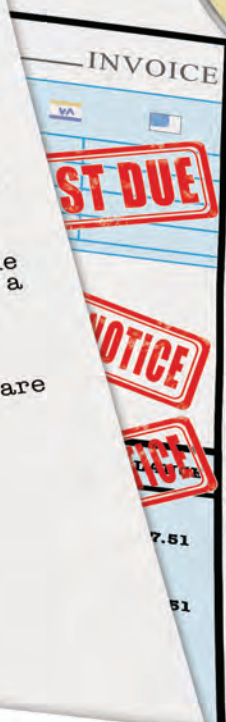

As you are still required to make yourself available to the S.H.I.E.L.D. medical team upon request, we are including a standard medical beeper.

Perhaps you will find this more sturdy.

Let us know if we can do anything else to meet your health care needs!

Thank you!

**KAZAKHSTAN.
ONE WEEK AGO.**

EXTINCTION.
IT'S PART OF THE
NATURAL ORDER. IT'S
HOW WE GOT HERE.

IF IT HADN'T BEEN FOR A
WELL-TIMED ASTEROID STRIKE,
THE DINOSAURS WOULD STILL BE
IN CHARGE AND THE HUMAN
EVOLUTIONARY BRANCH WOULD
HAVE STOPPED AT "TREE RAT."

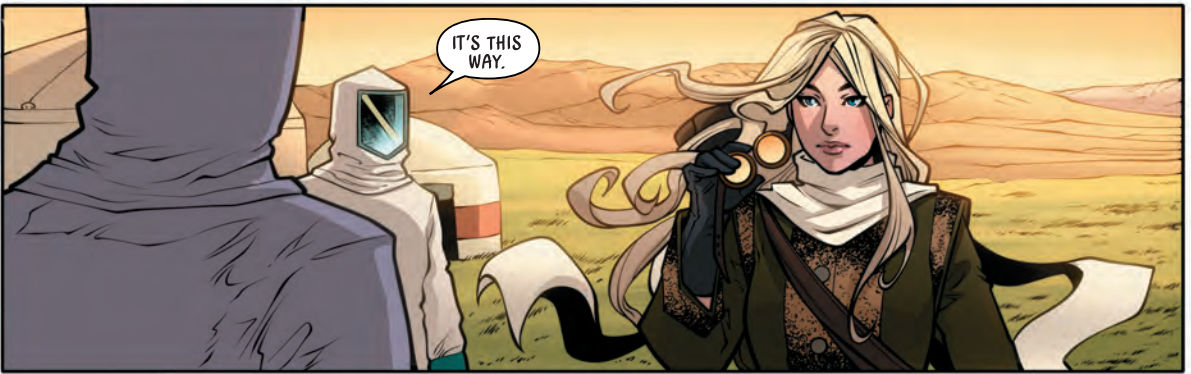

EVERYONE KNOWS
A MASS EXTINCTION
WHEN THEY SEE IT.

HARD
TO MISS.

THERE'S
A LOT OF
LAVA.

IT'S THE SMALLER ONES YOU
HAVE TO WATCH OUT FOR--
A SPECIES HERE OR THERE, SOME
FROG NO ONE CARES ABOUT, A
THOUSAND FISH WASHED UP ON
A BEACH FOR NO REASON.

IT'S THIS
WAY.

IN 2015, AS MANY AS
211,000 SAIGA ANTELOPES
DROPPED DEAD OVER A
FEW WEEKS.

IT WAS ONE OF THE
WORST MAMMAL
DIE-OFFS IN
RECENT HISTORY.

AND IT'S
HAPPENING
AGAIN.
