ASGARDIANS OF THE GALAXY

PREVIOUSLY...

When the space pirate Nebula stole an ancient beacon that calls forth the **NAGLFAR ARMADA**, an army of soulless gods, Thor's sister **ANGELA** recruited a team of Asgardians against her. After they defeated Nebula, Thor entrusted Angela with the Naglfar Beacon.

Returning to Earth, the Asgardians found New York City overwhelmed by the armies of Malekith the Accursed! After invading, conquering or allying with the other nine realms, Malekith has finally launched his invasion of the last realm standing: Midgard. Now he and his allies have divided up the Earth, each claiming a continent.

After Valkyrie was killed in battle, Angela joined the heroes of Earth to fight back the Angels of Heven, who have taken over Africa, while the rest of the Asgardians sought out Annabelle's spirit and brought her back to the land of the living. Now they must join the other heroes and reclaim the realm. For Angela, the battle has a personal stake: Malekith has allied with the Queen of Angels, the woman who kidnapped Angela at birth and ordered her death. Angela lived thanks to the Queen's handmaiden, but now she is a warrior without a home, neither a true Asgardian nor an Angel of Heven.

And she is not one to let a debt stand unpaid.

WHO ARE THE **ASGARDIANS?** OF THE GALAXY

■ ANGELA

The firstborn child of Odin and Freyja, Angela was kidnapped and believed slain by the Queen of Angels, but a handmaiden rescued her. When Heven was reopened to the other realms years later, Angela's heritage was revealed. Branded a traitor by both Asgard and Heven, she now lives by her own code: Nothing for nothing—everything has its price.

■ VALKYRIE

Brunnhilde served Asgard for centuries as the leader of the Valkyrior, warrior goddesses who usher the worthy fallen to Valhalla. She recently died in battle against Malekith, along with the rest of the Valkyries.

■ ANNABELLE RIGGS

When archaeologist Annabelle Riggs died, Valkyrie merged their life forces to save her. Upon Valkyrie's death, the rest of the Asgardians of the Galaxy rescued Annabelle from the mists of Valhalla and brought her back to the land of the living.

■ SKURGE THE EXECUTIONER

One of Asgard's greatest warriors, Skurge fell in love with Amora the Enchantress and has often fought fellow Asgardians in her name. He was redeemed when he died holding the bridge Gjallerbru against Hela with nothing but a pair of Midgardian M16s. Since then, he has wandered Hel in search of a purpose.

■ THUNDERSTRIKE

When Eric Masterson proved himself a true hero, he was granted the enchanted mace Thunderstrike by Odin. After Eric died in battle, Captain America gave the mace to Eric's son, Kevin, who soon proved himself worthy of the title and the weapon.

■ THROG

After his wife's death, Simon Walterson sought help from a witch, who turned him into a frog. When Loki turned his brother Thor into a frog, the two human-amphibians found themselves allies. Thor was soon restored, but Simon grabbed a fragment of Mjolnir and was transformed into Throg, the Frog of Thunder.

■ URZUUL

Desperate to prove herself stronger than Thanos' daughter Gamora, who recently kidnapped a dwarf to forge powerful armor for her, Nebula captured and murdered an entire clan of dwarves, leaving only Urzuul alive to build her a weapon. Determined to redeem himself, Urzuul has joined the Asgardians to help protect the beacon.
