

"I WAS OFF DUTY THAT NIGHT. IT WAS ED'S SHIFT ON THE BRIDGE."

ATSUTO DREHNER

CAPTAIN

DID HE MENTION ANYTHING ABOUT TAKING A SPACE WALK?

NOT BEFORE I TURNED IN. NO.

THAT'S UNUSUAL, ISN'T IT? YOUR FIRST OFFICER CONDUCTING A SPACE WALK WITHOUT CLEARING IT WITH YOU FIRST?

HE'D DONE IT FROM TIME TO TIME. WHICH WAS SOMETHING WE ARGUED ABOUT.

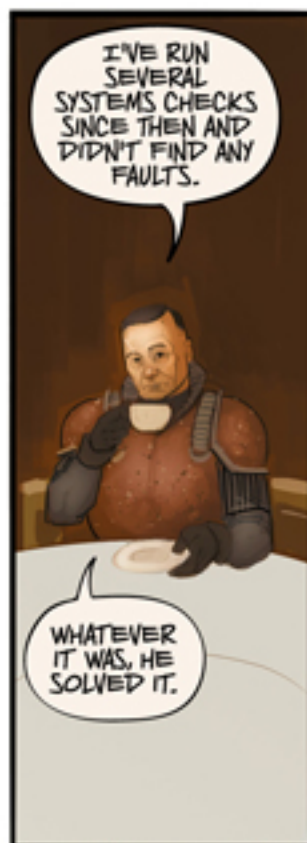

EDWARD WASN'T THE TYPE TO WAIT TO GET SOMETHING DONE. IF HE SAW A PROBLEM, HE WENT OUT AND FIXED IT.

AND IN THIS CASE?

I'VE RUN SEVERAL SYSTEMS CHECKS SINCE THEN AND DIDN'T FIND ANY FAULTS.

WHATEVER IT WAS, HE SOLVED IT.

YOU MAINTAIN THE BRUISING ON EDWARD'S ARMS AND NECK WAS FROM THE DECOMPRESSION.

DR. LEONID KHARLAMOV

SHIP'S PHYSICIAN

I BELIEVE
IT'S CONSISTENT,
YES.

SO YOU'VE
SEEN YOUR FAIR
SHARE OF INJURY AND
DEATH DUE TO
DECOMPRESSION.

THIS
WOULD
BE THE
FIRST.

AND YOU'VE DONE
AUTOPSIES BEFORE?
GONE THROUGH THE
PROPER TRAINING AND
THE LIKE?

WELL, I WAS A
PRIVATE PRACTITIONER
BEFORE JOINING
HADRIAN'S WALL--

THAT
WOULD BE
A "NO"
THEN?

...THAT
WOULD BE
A NO.

OH. AND
WHAT ABOUT
THE TOXICOLOGY
RESULTS?
WHERE ARE
WE AT ON
THOSE?

TESTS AREN'T
DONE YET, MR.
MOORE. BUT TRUST
ME... YOU'LL BE THE
FIRST TO KNOW. I
PROMISE.

YOU'RE
SURE IT WAS
ELEVEN
PM?
