ATOMIC ROBO

Remember those carefree days when the world was only imperiled by things like giant mutants from the sea or the occasional mad scientist dinosaur? Now it's 2017 and everything's horrible all the time! But that's why Atomic Robo is setting up the new Tesladyne Institute in the badlands of New Mexico's Jornada del Muerto desert with Sir Richard Branson's Spaceport on one side and Elon Musk's Solar Farm on the other! With neighbors like these who needs to uncover an insidious plot that threatens the lives of everyone in the world?!
