Runaways

When they were younger, Nico Minoru, Chase Stein, Gertrude Yorkes, Karolina Dean, Molly Hayes and Alex Wilder became friends through circumstance: hanging out once a year every year while their parents had what they claimed was a dinner party. Then trauma made them a family: they ran away together after discovering their parents were actually murderous super villains. The Runaways learned to use powers and resources inherited from their parents, and returned to defeat them. The kids won, but they didn't all survive.

Two years since Gert died, Chase decided that wasn't okay. He took Gert's parents' time machine and went back to stop it from happening. He succeeded, kind of, and returned to the present with Gert, but she was bleeding out from the knife wound in her stomach. Luckily, Nico (with the assistance of a doctor she mystically summoned) was able to stop the bleeding and fix Gert's wound. But that doesn't mean the Runaways are all better...

FIND YOUR WAY HOME pt II

It wasn't such a bad way to go.

Here with him, while they were still them.

Gert never figured she'd die at 16.

But she never figured on Chase Stein either...

At least the last thing she'd see in this dumb world would be his dumb, wonderful face.

Chase Stein...I... have... always...

no guff

No. I'm not done. I need to say it. I have to--

What was I supposed to do, Nico? Let her die? Again?

Chase?

Gert...
