A total obsession with power drives him—to control the forces of the universe.  
He is the Mad Titan. He is...

# THANOS

Recently, Thanos was stricken with a terminal illness. Taking advantage of his father's weakened state, Thane recruited Nebula, Tryp Slatterus and Thanos' brother, Starfox, to assassinate the Mad Titan. But seduced by Death — his father's former love — Thane betrayed his reammates, harnessed the Phoenix Force, stripped Thanos of his powers and left them all for dead.

After realizing Thane's corruption, Thanos entered the God Quarry — a legendary burial place of the gods — to obtain power that will allow him to defeat the Phoenix-powered Thane. However, father and son appear to be an equal match of strength and skill. Whoever emerges victorious from this battle will shape the future of the entire universe.
