

BLÜDHAVEN. NOW.

WHO DIED?

DIENER

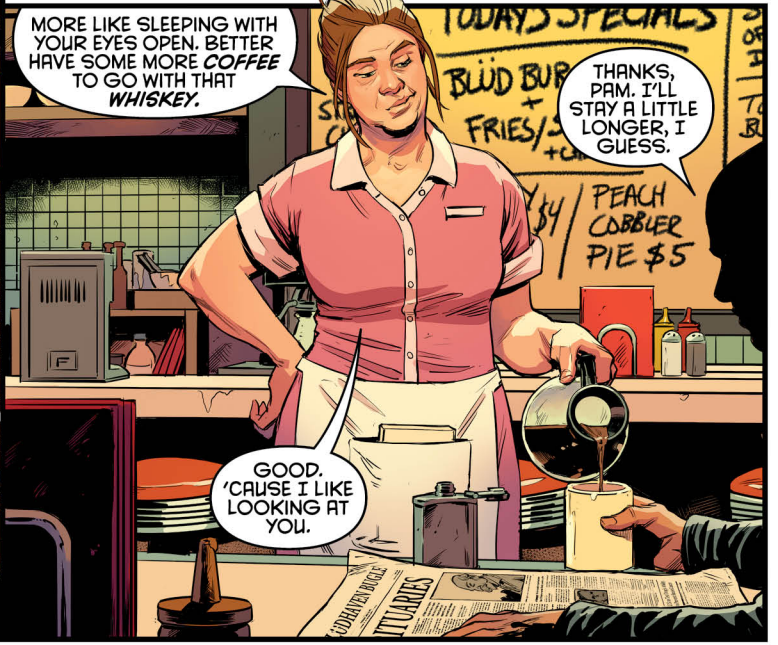

WHAT? OH. NO.

NO ONE, I'M JUST READING THE PAPER.

MORE LIKE SLEEPING WITH YOUR EYES OPEN. BETTER HAVE SOME MORE COFFEE TO GO WITH THAT WHISKEY.

THANKS, PAM. I'LL STAY A LITTLE LONGER, I GUESS.

GOOD. 'CAUSE I LIKE LOOKING AT YOU.

DING

WELCOME. GO ON AND SIT WHERE YOU WANT. LET ME KNOW IF THERE'S ANYTHING I CAN--

--PLEASE.

PLEASE DON'T--

--DON'T KILL ME.

The bullet was traveling
3,200 feet per second.*

*Nightwing was shot in
BATMAN #55. Check it out.
--K.K.

I lost bone, blood,
brain tissue and
cerebrospinal fluid. And
suffered from severe
vascular swelling.

There are *consequences*
when you get shot in
the skull.

Memory loss. Mood
swings. Blackouts.
Seizures. Loss of
motor function.

I'm still trying to figure
out my new hard-wiring.
But one thing's for
damn sure...

...you survive a bullet
to the brain, you get
this funny idea in
your head...
