

DEATHLOK

>>> **BEFORE:** Henry Hayes was a combat medic, injured in battle.

But he was given a new lease on life through prosthetics made by BIOTEK...

>>> **NOW:** Henry works for MEDICS WITHOUT BORDERS, going into war zones to help provide aid and relief. Or so he thinks...

Without his knowledge, Henry has been turned into DEATHLOK, a cyborg asset for a mysterious organization's deadly covert operations. Implanted false memories allow Hayes to believe he is helping people, but after the organization used their control over Henry to make him kill a S.H.I.E.L.D. agent who uncovered the truth, S.H.I.E.L.D. agent Andrea Hope is in pursuit of Deathlok, and the illusion is in jeopardy.

Henry was beaten severely while looking for his delinquent daughter Aria at a nightclub. At home he found the mercenary Domino waiting for him, who had been blackmailed by a splinter faction of A.I.M. into finding Henry. Having done so, Domino greeted Henry by shooting him point blank.
