

After Thanos took his family and his life, the man now known as Drax was remade into a being of great strength with a thirst for revenge. His pursuit of justice has taken him throughout the universe and shown his incredible courage and heroism, which led Peter Quill to invite him into the Guardians of the Galaxy. Though he found a new home with the Guardians, true peace remains elusive for the warrior called...

DRAX

While the Guardians had some downtime, Drax zipped out to kill Thanos real quick, but then his busted loaner ship crashed into a backwater burg on an isolated moon. Drax found a friend in Terrax, retired Galactus herald and enthusiastic ax-wielder, just as everything else went missing. Technology and people were disappearing, eventually including Terrax! It all turned up in a mine, where children were forced to do the digging. Drax's rage-fueled rescue was foiled--by none other than Fin Fang Foom!
