

Grady.

Huh?

You don't look well.

I'm **NOT** well, Natasha.

Daniel is making progress.

Not fast enough.

No. Not fast enough.

We're **HANDING** him the solution—

He's being careful.

I don't need careful, Natasha. I need a cure.

I can only control him—

You've **ALWAYS** had him by the —

Oh Jesus. You're [redacted] him—

Hey, it's been a **LONG** time since I [redacted] anybody—

Charming.

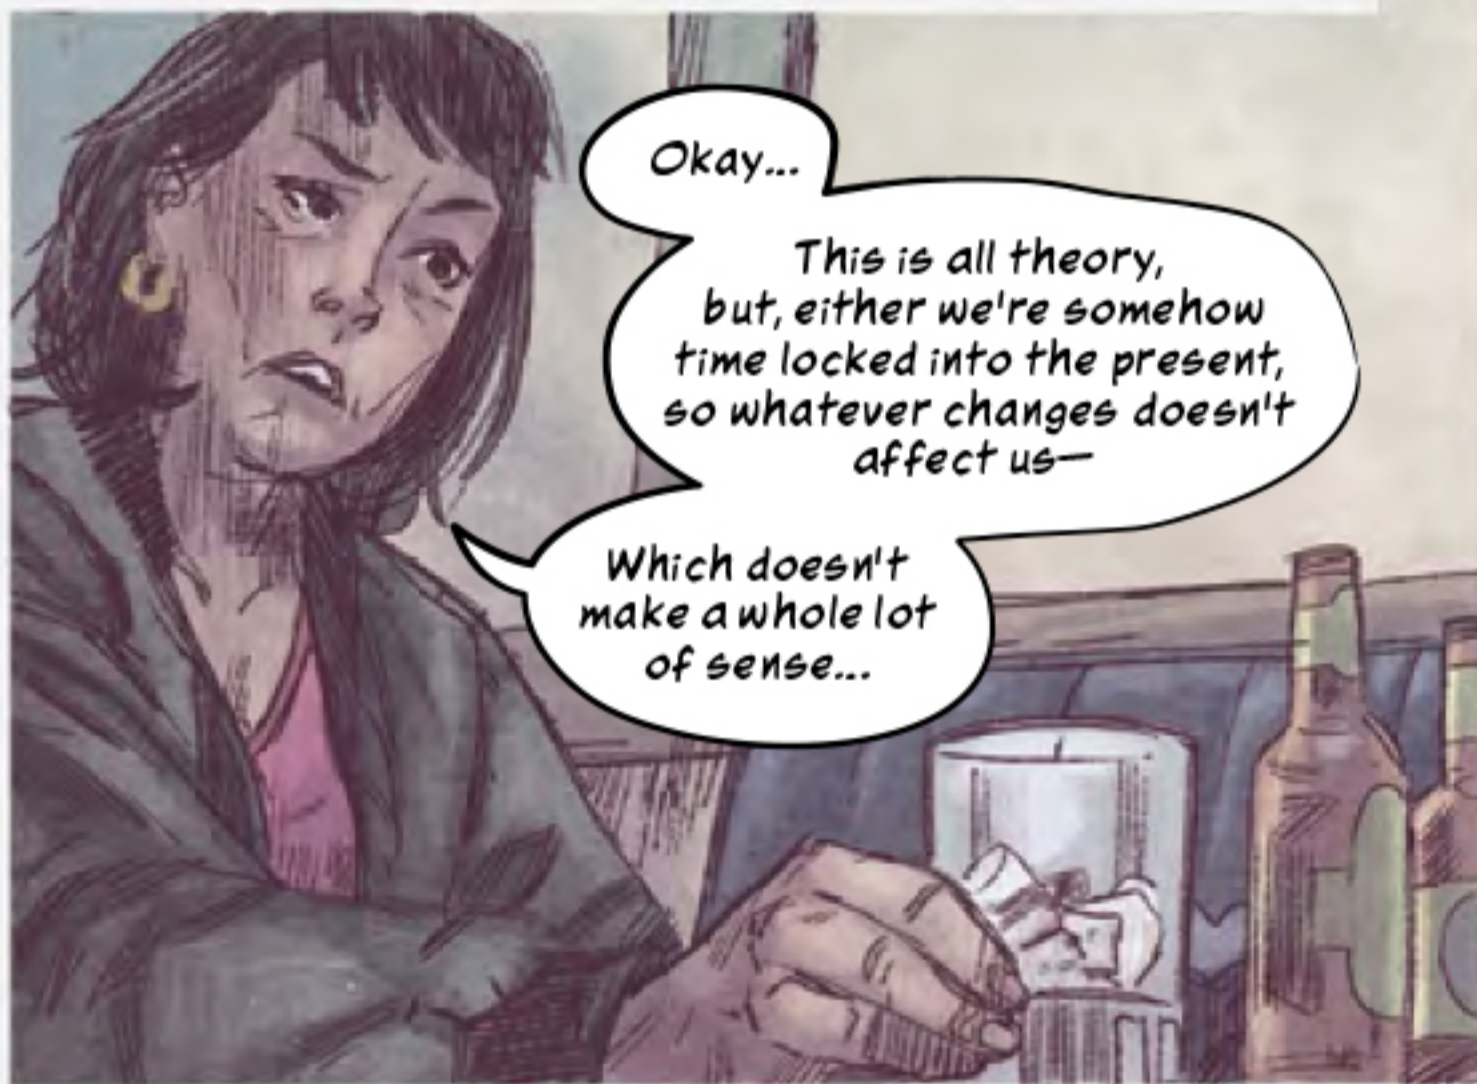

Lemme ask you a physics question.

If all of this is going to change everything for us, then, how do we get here in the first place?

Really? That's what you want to talk about?

Yeah. It is. Drink?

Okay...

This is all theory, but, either we're somehow time locked into the present, so whatever changes doesn't affect us—

Which doesn't make a whole lot of sense...

Or what, then?

We haven't fixed it yet. When we do, we should go 'fwoop' and then just...

...disappear.

Really?

I have no idea.

Ceasing to exist. That **DOES** sound nice.

Haha...

HA HA HA HA HA

Oh, God...

There's something else...

Something is different. Really different.

That's to be expected—

No. This is big.

Heidi met someone. Before she was arrested.

So what? I'm sure we've all been with people we don't know about—

That's not really the problem—

This is [redacted]

There's an old one of YOU too? What IS this?

You [redacted] BROUGHT HER HERE!?

So you're just going to leave? We have to **FIX** this!

Enjoy yourself.

Lloyd! Two more of these please.
