

Super-Soldier. Avenger. Agent of Hydra. He is...

Steve★Rogers
CAPTAIN
AMERICA

Steve Rogers' reality has been secretly rewritten by Kobik, a sentient Cosmic Cube acting under the influence of the Red Skull. In Steve's new history, a Hydra agent named Elisa Sinclair enrolled Steve in a school where he was trained to believe in Hydra's ideals—and befriended a young Helmut Zemo. The leaders of Hydra recognized Steve's promise and gave him a secret mission: return to the U.S. to assassinate Dr. Abraham Erskine. But before he could carry it out, Erskine recruited him to be America's first Super-Soldier.

In the present, S.H.I.E.L.D. Director Maria Hill has been ousted, but she took plans for a planetary defense shield with her and gave them to Captain Marvel. Captain America has taken her place as head of S.H.I.E.L.D. to overwhelming public approval. With Jack Flag dead from his injuries and Zemo in Steve's custody, his plan is finally starting to come together. But the Cosmic Cube who started it all is still in the wind along with Bucky Barnes and his team of Thunderbolts, and if Steve doesn't find her, she could bring all his schemes tumbling down...
