Guardian. Warrior. Fugitive.

Would you be willing to risk millions of lives to save the few that mean the world to you? That's the impossible question Amanda McKee, the superpowered psiot known as Livewire, had to ask herself. Amanda ended up using her immensely powerful teletechnopathic abilities to shut down all power in the United States, throwing the country into turmoil.

Now, Livewire is Public Enemy Number One and everyone has her in their sights. One dangerous group of mercenaries managed to get the jump on her and disabled her superpowers by implanting a device in her brain. But there's more to Livewire than just her powers. After a brutal and bloody brawl, Amanda escaped, but she's far from safe as an even greater threat looms on the horizon...

COME OUT,
COME OUT,
WHEREVER
YOU ARE.

IT'S NOT
POSSIBLE...

I KNOW
THERE'S NO
WAY YOU WERE
TAKEN OUT BY A
PUNY GRENADE,
AMANDA.

THAT
WAS JUST A
LITTLE "HELLO,"
FOR OLD TIME'S
SAKE.

PAUL,
I WISH
I COULD
SAY IT WAS
GOOD TO
SEE YOU.

OH,
COME ON,
DON'T BE
LIKE THAT.
AFTER ALL,
WE'VE BEEN
THROUGH?

YOU HERE
TO COLLECT YOUR
THIRTY PIECES
OF SILVER FOR THE
GOVERNMENT?

THAT'S RICH
COMING FROM THE
MOUTH OF A
BETRAYER.
