

CAPTAIN AMERICA AND THE MIGHTY AVENGERS

Dear Community,

We've had some setbacks recently, but our team (including Captain America, Power Man, She-Hulk, Kaluu, White Tiger, Blue Marvel, Spectrum and myself, Luke Cage) remains committed to working with you, the people, to help those in need. Legal difficulties, car trouble, rampaging super villains, you name it -- if you've got a problem, we're your guys.

Remember, the more you help us, the more we can help you. Our volunteer call center is always looking for new recruits to field calls from those who need help. You too can be a Mighty Avenger!

As always, thanks for your ongoing support and feedback.

Your neighbor,

Luke Cage

MIGHTY AVENGERS UNDER ATTACK FROM...BEYOND?

- Luke Cage and his wife Jessica Jones are recovering after being teleported into space by CORTEX CEO Jason Quantrell, who has revealed himself to be an agent of the horrifying and otherworldly Beyond Corporation. This news was not taken well by Spectrum, who had previously been manipulated by the Beyond Corporation back when she was a member of the anti-terrorism team Nextwave.
- Meanwhile, Captain America has his hands full fighting a pack of mutated Mighty Avengers, including White Tiger, Power Man, Kaluu and She-Hulk, all led by the mutated CORTEX assassin known as Quickfire. One hit from any of these monstrosities and Cap will find himself with a new set of claws too...

Big thanks to Doc Brashear for the outer space rescue!

These guys are turning everybody purple and ugly. Steer clear.

Monica's a little pissed. Might wanna steer clear of her too.
