NINJAK SPECIFICATIONS & INSIGHTS

# Gauntlet with Chemical Loadout

**SODIUM AMYTAL (TRUTH SERUM).**  
Subject is not susceptible to torture and interrogation techniques due to his inability or unwillingness to tell any simple truths.

**STRONTIUM-90 RADIOACTIVE GRANULE.**  
At all costs, he avoids close contact outside of the mission. In all probability this is due to the traumatic loss of [REDACTED]

**AUGMENTED TACTILE INPUTS.**  
Psych profiles are inconclusive but reports indicate a lack of true emotional responses to any stimuli. Any "feeling" shown by subject is thought to be purely artificial.

**BATTERY-POWERED JOINT STRENGTHENERS.**  
Intensive and classified training at the [REDACTED] has made the subject our strongest human agent in the field. However it is feared that this strength makes him brittle and prone to a catastrophic breakdown.

**HIGH-SPEED WRIST-ACTIVATED POISON DISPERSAL NEEDLES.**  
He shows an incredible propensity for pain management and is unflinchingly—some say too eager—able to deal pain (both physical and emotional) to his targets.

## PREVIOUSLY IN NINJAK...

His name is Ninjak - spy and mercenary for hire. He is also Colin King, wealthy son of privilege.

British espionage organization MI-6 tasked Colin with infiltrating and destroying Weaponeer, a criminal organization that designs weapons for the highest, most illicit bidder. Under the guise of businessman Henry Collins, Ninjak ingratiated himself to the group's imposing leader, Kannon. He also met Kannon's right-hand woman, Roku, an assassin so feared that skilled warriors have taken their own lives rather than face her razor-sharp locks of hair and deadly skills.

Colin might be in over his head on this one.

ANTICIPATION IS THE KEY TO ESPIONAGE. IT WAS A SIMPLE MATTER OF SCANNING KANNON'S ITINERARY OFF OF HIS ASSISTANT'S COMPUTER.

HE'D MADE RESERVATIONS FOR THIS PLACE. SO ALL I HAD TO DO WAS STAKE IT OUT THE NIGHT BEFORE.

DEPLOY MINI-DRONES WITH NETWORK LINK AND LOCAL BROADCASTING CAPABILITIES.

AND TRY TO IGNORE THE SNEAKING SUSPICION...

...THAT SOMEONE WAS ON TO ME.

**NOW.**

THE MINI-DRONES DO THEIR JOB. THEY SCAN EVERY FACE AND WEAPON IN THE CROWD. THEY DOWNLOAD DOSSIERS FROM MI-6'S MASSIVE DATABASE.

Peter Lee. Human trafficker with deep ties to the Silk Road drug trade.

Kit Laughlin. White-collar criminal convicted on twelve counts of embezzling nearly one billion dollars over the last three years. Fugitive wanted in six countries.

Lars Herby. Experimental drug designer whose psychedelic creation "Ohkult" spawned a new billion-dollar drug trade. The formula for his psychotropic non-habit-forming drug is a closely held secret.

THE SCAN SUGGESTS THREE IDEAL TARGETS. I HAD ANTICIPATED FIVE DIFFERENT TRUST-BUILDING SCENARIOS THAT KANNON WOULD USE TO TEST ME. THIS WAS THE EASIEST ONE.
