PREVIOUSLY IN X-MEN '92...

The X-Men are the most popular mutants on Earth. And now they're the most popular teachers, as well. The semester's barely begun at Xavier's School for Gifted Youngsters when the mercenary known as Maverick crashes into the X-Mansion with a message for the X-Men: "They're coming for you; it's all a game." Soon after, the People's Protectorate -- Russia's premier super team -- arrive and demand Maverick be turned over to them. The X-Men refuse, and chaos ensues. But following the battle, Maverick reveals that the Fenris twins have located and released Alpha Red, a Soviet relic from World War II, and they've pointed the ravenous monster in the direction of Westchester.

Now, as the X-Men prepare to face a deadly new threat, Alpha Red moves in on his first victims -- Chamber and Jubilee.
