Reveling in a near victory over the galaxy's malignant dictator, Wilhelm Ryan, Inferno stands to make his next move. But within the team of Rebels, discontent is brewing. Claudio Kilgannon—a key player in Ryan's upheaval and the potential living instrument sent to end the universe—has begun to question the intentions of their own headstrong leader. Amidst Claudio's confusion about his ability to change the path of his destiny and the growing lack of faith in Inferno's direction, indecision has started to chip away at the long-held beliefs of those aboard the Grail Arbor—giving Ryan just the time he needs to reconfigure a new strategy for universal domination.

*"If Man should decide to dabble in my affairs, then Guardians must intervene. But, should I come forth and change the face of Man with you there to challenge me, then I shall return with the stars to destroy all I have made. Whether Man or I present that danger will not be told in the coming."*
