MOON GIRL AND DEVIL DINOSAUR

Lunella Lafayette is a 9-year-old prodigy living with her mom and dad in Manhattan's Lower East Side. She was partners with a bright red time-displaced *Tyrannosaurus rex* named Devil Dinosaur until she tearfully returned him to his home.

Recognized by the scientific community as the World's Smartest Person, Lunella formed a bond with Ben Grimm (A.K.A. the Thing) and Johnny Storm (A.K.A. the Human Torch), the family members of the dearly departed previous titleholder, Reed Richards. With no hope for their team, the Fantastic Four, to be whole, Ben and Johnny gifted Lunella with some old FF tech (including some old costumes and a decommissioned H.E.R.B.I.E. unit) to put to good use in her lab.

Soon, the cosmic beings known as Galactus and the Silver Surfer came to warn Lunella that the ancient universe-devouring entity known as Omnipotentis was being drawn to Earth. Lunella and her new friends quickly discovered that the Super-Skrull was behind the plot to summon Omnipotentis and destroy Earth.

Using H.E.R.B.I.E. as an interdimensional search engine, Lunella brought Devil back to re-form a new Fantastic Four to take on Super-Skrull and prevent Omnipotentis' arrival!
