The mini-galaxy of Feudarnia—an alternate-reality home for our Duckburg and Mouseton stars—is living year three of a ruthless siege! It's a constant attack by the Meteormaster and his Meteorbeasts—giant animals made of enchanted stone called Dragonite. The only hope of beating these monsters is the Beastbusters and their Busterbots: feisty local bounty hunters and the flying robot boats they have built for the purpose...

And now it's time for the final showdown! Shifty Pegleg Pete has turned on the Meteormaster—helping Mickey and Donald swat his chief techie, Emil Eagle! The new allegiance also brings the Magnuss Malleus, a super Beastbusting hammer, back to our heroes. But they still must reach the secret lab of Magicianeer Gyro Gearloose... whose Trembling Anvil can be paired with the hammer to win the battle for good!

Hmm... good... was the Meteormaster himself ever good? And if so, what can it mean?
