

F5m1d

BIRDS SEE THE ELECTROMAGNETIC FIELDS OF THE EARTH. THEY USE THIS TO MIGRATE.

HUNTING BIRDS ALSO SEE IN THE ULTRAVIOLET SPECTRUM SO THEY CAN TRACK THE URINE OF THEIR PREY.

THEIR EYES HAVE MORE CAMERA SETTINGS THAN THE AVERAGE SMART PHONE AND ARE ABLE TO SEE AT GREAT DISTANCES.

BERLIN, GERMANY

CROWS ARE ONE OF THE SMARTEST BIRDS.

THEY HAVE THE ABILITY TO REMEMBER FACES.

THEY HOLD GRUDGES.

THEY'RE EASY TO TRAIN.

MAYBE IT ONLY
TAKES ONE CROW
TO BE A MURDER
AFTER ALL.
