

STEPHEN STRANGE was a preeminent surgeon until a car accident damaged the nerves in his hands. His ego drove him to scour the globe for a miracle cure, but instead he found a mysterious wizard called the **ANCIENT ONE** who taught him magic and that there are things in this world bigger than himself. These lessons led Stephen to become the **Sorcerer Supreme**, Earth's first defense against all manner of magical threats. His patients call him...

DOCTOR STRANGE

Doctor Strange's friend and assistant **WONG** has been assimilated by **Mr. Misery** (a monster made up of Doctor Strange's own pain and suffering), and the Sorcerer Supreme can't find either of them.

But **Mr. Misery** has now made a move in the form of a group of horribly tumorous victims. These victims were all treated and operated on by Doctor Strange back in his surgeon days. When a non-magical doctor tried to help one patient, the tumors (made out of the same substance as **Misery**) slaughtered everyone in the room.

Now Doctor Strange must find a way to re-save these people. Luckily, he doesn't have to do it alone--**THE MIGHTY THOR** has come to his aid!
