Ugh, I'm covered in Ultron oil.

And I've still got *Emma's blood* on my hands, Dazzler. Perspective.

Point taken, Jubilee.

Quiet. We have no idea where Askani sent us to this time.

No, but Ah'd be surprised if this is Moira's first life, Frenzy. Unless she's Scottish by way of...

...ancient Egypt.

It appears we'll need to cull the guards and start over--

Apocalypse's throne room.  
Moirra's ninth life.

--for none  
who would allow  
intruders to reach  
our inner sanctum are  
worthy of serving  
Apocalypse and  
his queen.

Is that  
Joanna Cargill,  
my king?

Did she  
not *fail* us  
years ago?

I *purged*  
her myself, Moira.  
Which means these  
five are either  
impostors...

...or unwanted  
visitors from  
another  
reality.

Yeah, this  
is not where  
we want to be  
right now.

Either  
way, they must  
be dealt with.  
Summon...

...the Host.

C'mon, Rach-- we ain't got time to spare here!
