THE Fantastic Four

A brilliant scientist--his best friend--the woman he loved --and her fiery-tempered kid brother! Together, they braved the unknown terrors of outer space, and were changed by cosmic rays into something more than merely human! They became the FANTASTIC FOUR...but were separated by tragedy.

The world believes that Reed and Sue Richards, along with the Future Foundation, sacrificed themselves to stop a universal catastrophe. Ben Grimm, A.K.A. the Thing, also believes them to be dead. But Johnny Storm hasn't given up hope that the rest of his family is out there...somewhere...
