

Thief. Goddess. Headmistress. Queen. The X-Man called **STORM** has always defied a single title. And her desire to better the world has never been limited to only her own kind.

STORM

PREVIOUSLY...

Storm recently caught the villainous cyborg Davis Harmon in the ruins of Utopia, salvaging parts from the former home of the X-Men. But Harmon wasn't just looking for technology: he used former student Kenji Uedo to regenerate himself, erasing Kenji's memories of his crimes on Utopia in the process. But Kenji's murderous past didn't stay forgotten for long, and now mutants all over the world are under attack from Kenji's army of techno-organic monsters.
