

After surviving a future where everything good in the world was destroyed, Old Man Logan awoke in the present, determined to prevent the death of his wife and children. Even after accepting that the past he remembers is not real, he is still haunted by his lost family.

Logan recently traveled to Killhorn Falls, a mining town in northern Canada. While he was there, Lady Deathstrike and her band of Reavers attacked. Their target was Logan, but in the end only innocent people were killed.

Meanwhile, in his past, Logan has seemingly found safety with a group of refugees who have settled in the old Weapon X bunker. He has also found love with a young woman named Maureen.
