

THE PENGUIN

Don't let his silly waddling walk or old-fashioned top hat fool you. The Penguin is one dangerous criminal. He's nearly always surrounded by loyal henchmen—and he's nearly always up to no good. The Penguin has a knack for knowing what everyone in Gotham City is up to. And he uses that knowledge to make people do what he wants. He strikes fear into the hearts of citizens and keeps Batman and Robin busy.

Oswald Chesterfield Copperpot wasn't always such a trouble-making birdbrain. Once upon a time, he was a grumpy little boy whose mother ran a pet shop filled with exotic birds. The birds fascinated him. After he became an underworld boss in Gotham City, he started using birds in schemes. He's so clever and devious he even trained birds to commit crimes for him!

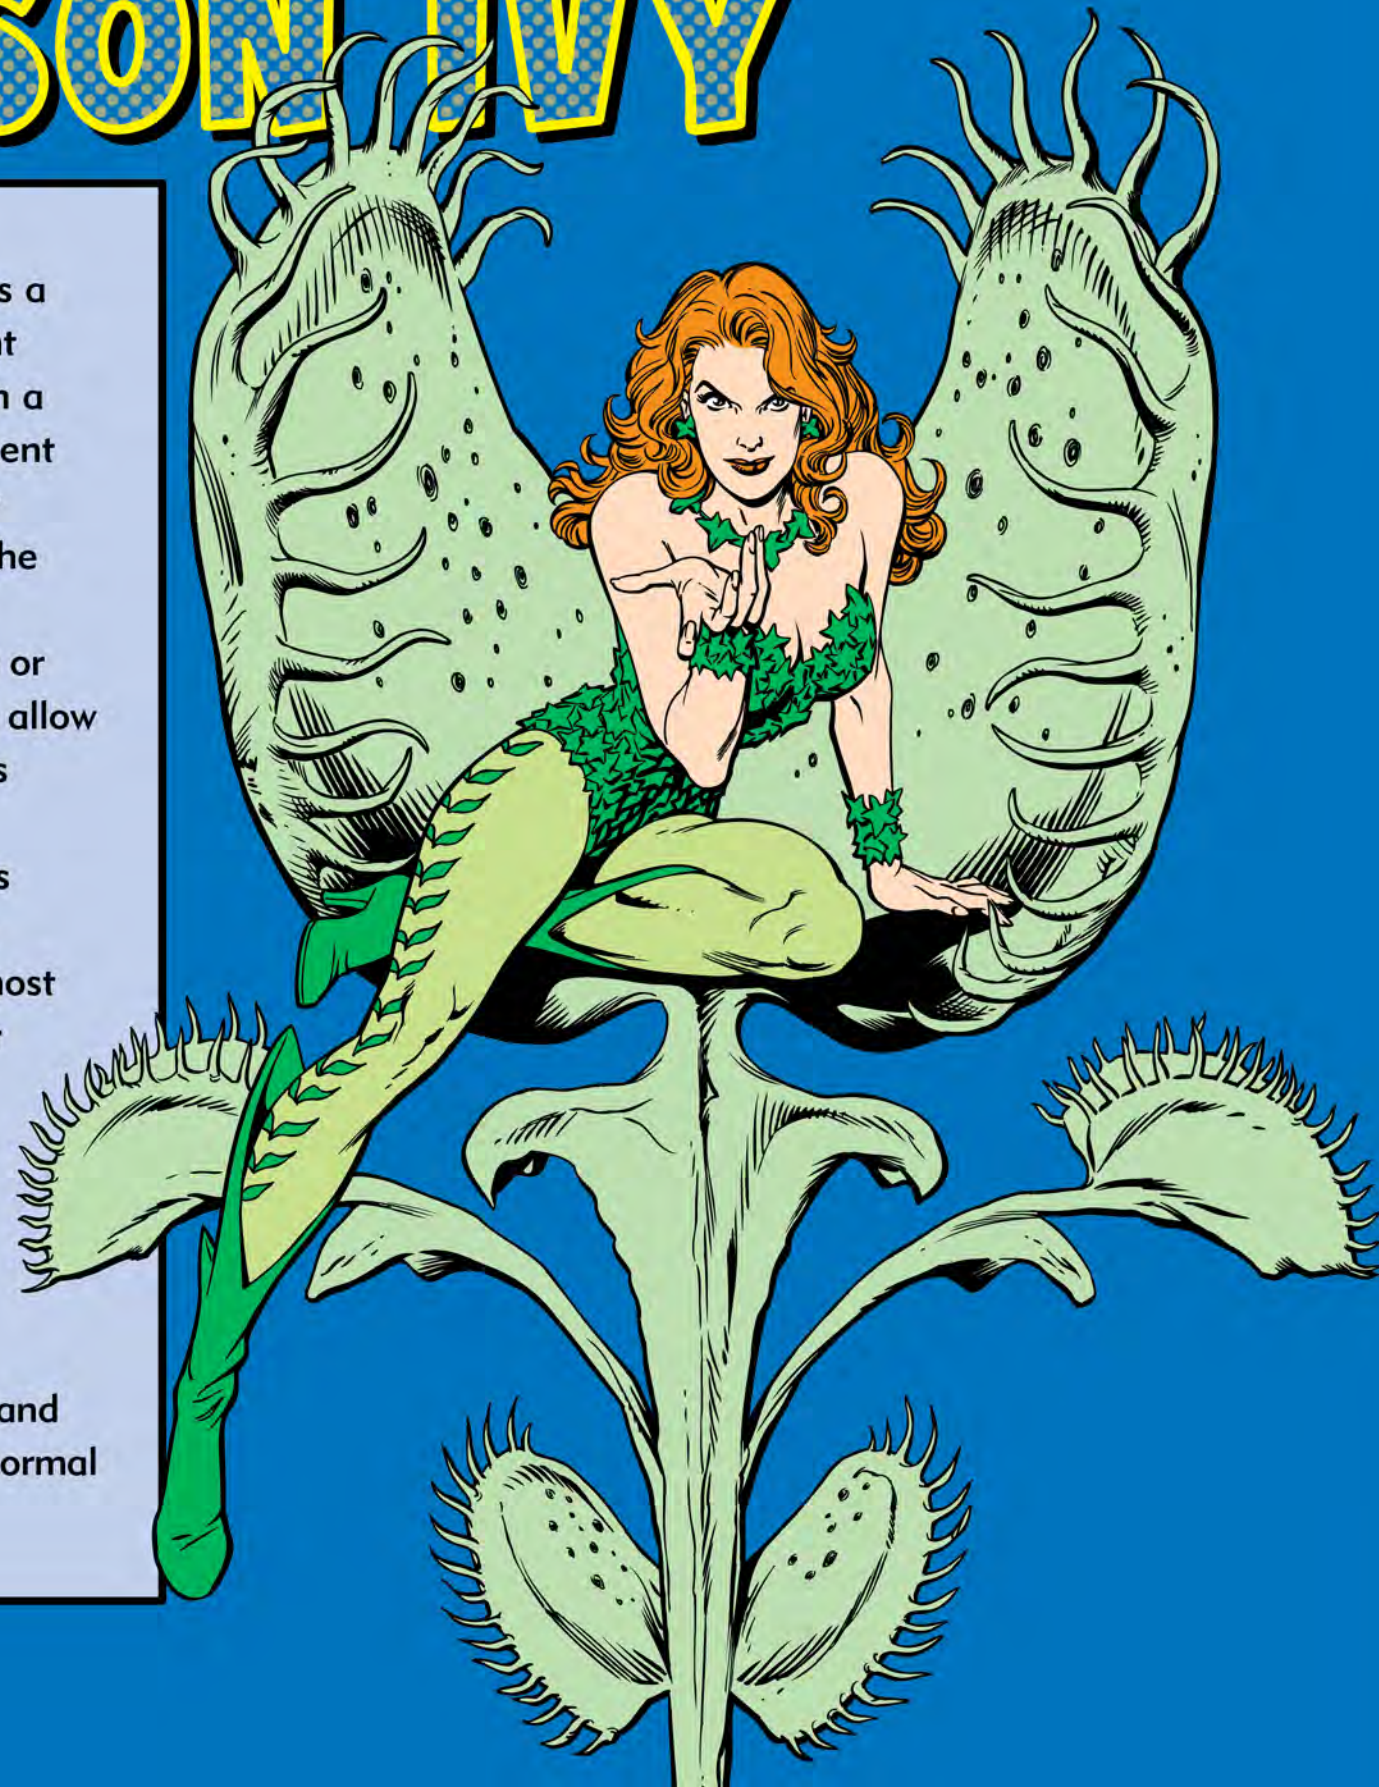

Birds aren't the only things the Penguin uses to commit crimes. Watch out for his tricky umbrellas!

POISON IVY

Pamela Isley was a shy and brilliant plant scientist when a dangerous experiment gave her the ability to control plants. She can trap someone with creeping vines or unleash toxins that allow her control people's minds.

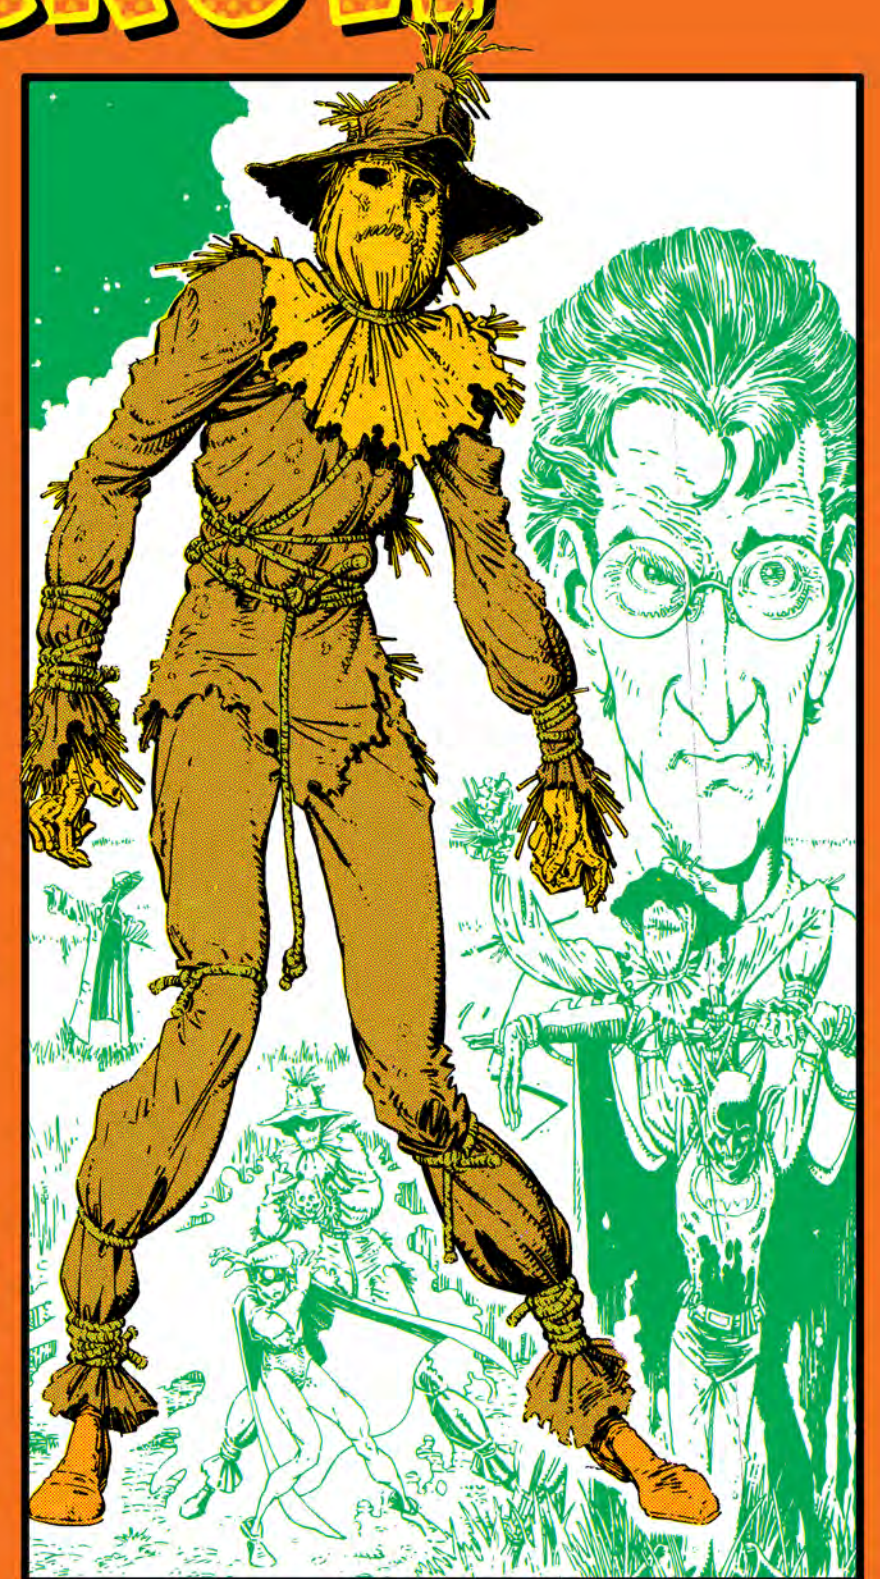

Poison Ivy battles Batman and Robin, but she saves her most serious schemes for people who hurt the environment. Because of the plant toxins inside her body, Poison Ivy is immune to all sorts of poisons and bacteria that hurt normal people.

SCARECROW

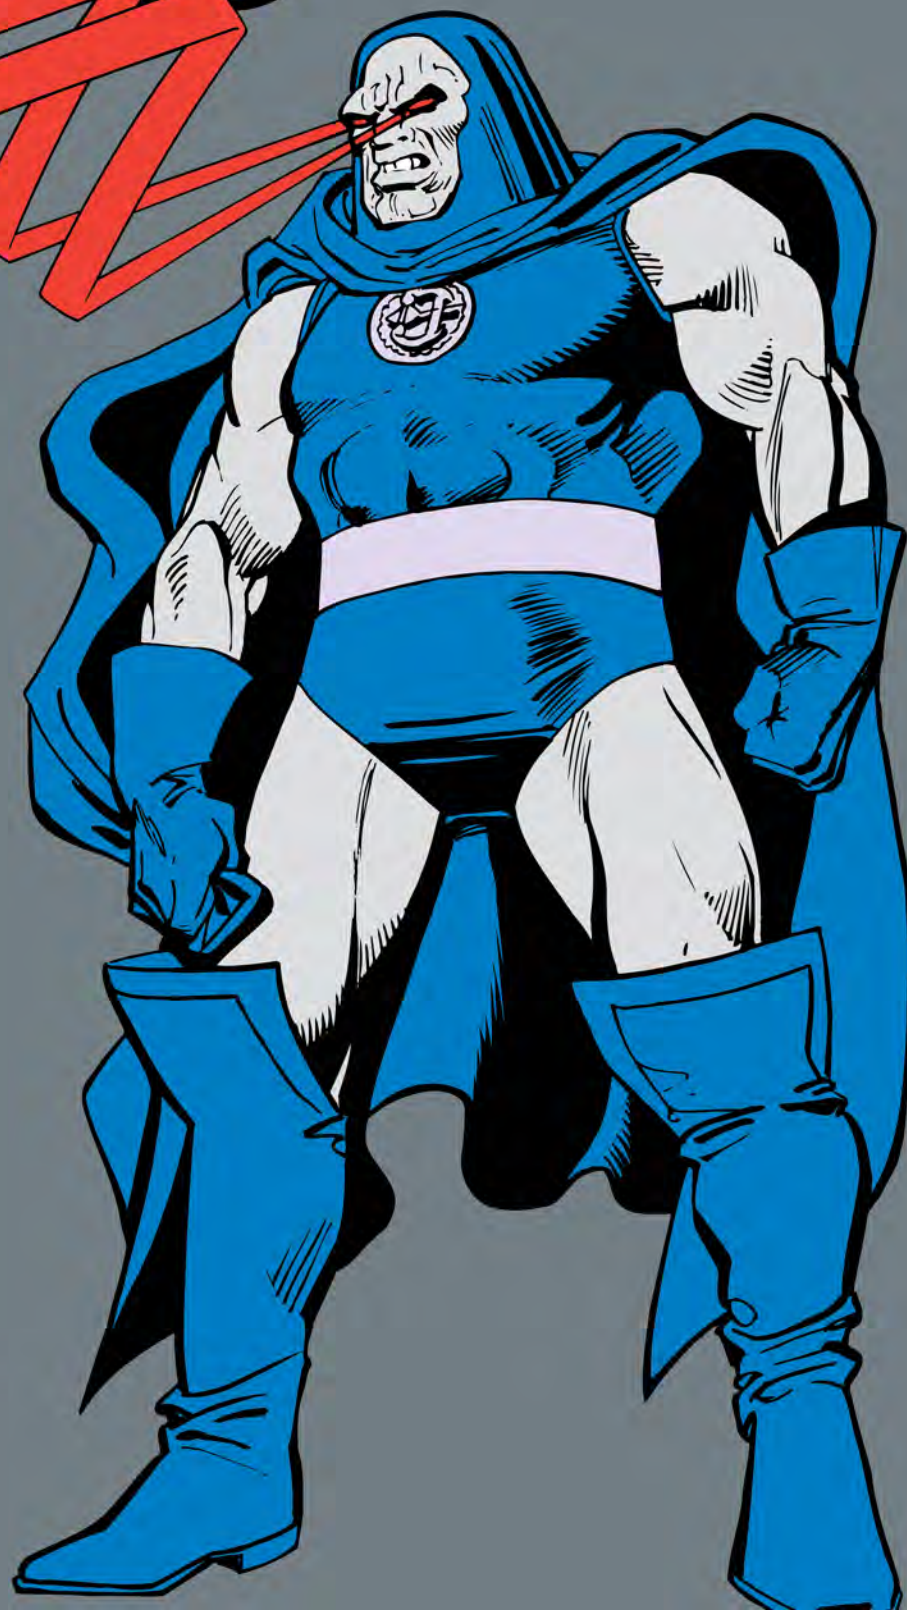

As a child, Jonathan Crane lived in fear. He hated it and set out to conquer his fears. He studied psychology and learned everything he could about what scares people. But he does not use this knowledge to help people. Instead Scarecrow invented a fear toxin that makes people live out their worst nightmares. This cruel criminal is happiest when he is terrifying the citizens of Gotham City.

DARKSEID

Beware the Omega Beams! Darkseid draws energy from a cosmic power source called the Omega Effect. He can harness this power and focus it into pure energy that he shoots from his eyes. His deadly Omega Beams can destroy anyone or anything in their path—or zap them to a completely different place in the universe. Mighty Omega Beams aren't the only tricks Darkseid has. With superhuman speed, superhuman strength, and the ability to read minds and control people's thoughts, he is one of Superman's most powerful enemies.

Darkseid rules the planet Apokolips, forcing people to work until they drop. But he wants to control more than just one miserable planet. He wants to take over the entire universe and make every being in it his slave.

Darkseid has an army of flying minions called Parademons. They help him spread fear throughout the universe.
