

Jennifer Walters was a shy attorney, good at her job and quiet in her life, when she found herself gunned down by criminals. A gamma-irradiated blood transfusion from her cousin, Dr. Bruce Banner, a.k.a. the Incredible Hulk, didn't just give her a second chance at life, it gave her super-strength and bulletproof green skin. Wherever justice is threatened, you'll find the Sensational...

SHE-HULK

Ever since Jen left the boys club of her last law firm, life has been tumultuous to say the least. But since she's opened her own firm and taken matters into her own hands – from helping out old friends like Ant-Man, Nightwatch, and Steve Rogers, to facing off against Daredevil in court, to showing even Doctor Doom a thing or two – things have mostly been on the upswing.

Mostly. Because, well, sure, there's the Blue File that she hasn't quite been able to figure out and seems to have left a trail of destruction behind it...oh, and there's the small matter of her archnemesis Titania being paid for unknown persons to show up and beat the snot out of her. She-Hulk managed to narrowly defeat her, and Angie was finally able to tell her who's behind everything, including the Blue File: Nightwatch.

But at least Nighwatch doesn't know they know...right?
