

# WOLVERINE ORIGINS

The mutant Wolverine has spent a century fighting those who would manipulate him for his unique powers—savage claws, heightened senses, and a healing factor capable of miracles. After repeated brainwashing, torture, and reprogramming, Wolverine's past was as much a mystery to him as to anyone. With those long-lost memories finally returned to him, Wolverine has set out on a mission to punish the conspirators who have wronged him.

Recently, a shadowy figure hired Deadpool to hunt down and take out Wolverine. The Merc with a Mouth attacked Logan and the two have been going at it across San Francisco. Though closely matched, Deadpool eventually gained the upper hand, tying Wolverine up, and weighing him down, suspended over a tank of water. Before Deadpool could drop him in, however, Wolverine's crazed son Daken arrived, chopped off one of Deadpool's hands and did the deed himself.
