THE PUNISHER

The Punisher has been on the trail of Condor, a former mercenary organization now pushing EMC, a drug that gives its users enhanced strength, but also dangerous mental instability. Frank's former commander in the Marines, Olaf, tipped off Frank on Condor's operations from the inside. However, Olaf then went after Frank with two mercs, causing the death of a kindly old lady who helped an injured Frank, so obviously he's not on the up-and-up...

Meanwhile, D.E.A. Agent Ortiz has been pursuing Face, the Condor operative who killed her partner. That chase has led to Face overdosing on EMC and kidnapping Ortiz in the back of an ambulance.
