

ALL-NEW WOLVERINE

SNIKT!

Laura Kinney was created to be a weapon, but she escaped that life with the help of the man she was cloned from, the man who became her mentor: Logan, known as The Wolverine. Tragically, the original Wolverine has fallen, but Laura will live as his legacy and fight for her better future.

She is **THE ALL-NEW WOLVERINE.**

After being sent a vial of trigger scent—a chemical used to make Laura go berserk—Wolverine and her preteen clone, Gabby, fled to the small town of Daylesville, California. But shortly after their arrival, trigger scent fell from the sky, seeming to cause Laura to lose control and slaughter the whole town.

After escaping from S.H.I.E.L.D. and Nick Fury, Laura and Gabby bartered travel to Madripoor, determined to find answers about who caused this devastation. But their vessel was intercepted by none other than Bellona—another of Laura's clones.

Bellona has been working for Kimura, a nightmare from Laura's past. And now that Kimura has Laura in her clutches, there's no saying what will happen next.
