AVENGERS

NO SURRENDER

The Earth has been STOLEN! The sky burns while mysterious cosmic objects crash down from above, wreaking havoc across the world! Most of the world's heroes and villains have been trapped in a mysterious stasis, leaving behind only a handful of Avengers as the world's last line of defense.

The Avengers divided into teams to investigate the dangerous, pyramid-shaped objects that the Lethal Legion and Black Order are fighting over in Rome and Peru. Quicksilver, who was recently fired from the Unity Squad, couldn't stand being left behind, and raced from Avengers HQ to join the action in Rome. But just as he was about to claim one of the mysterious objects, the Scarlet Witch was able to lift the stasis on Vision--by unknowingly transferring his frozen state to her brother.

Quicksilver was left at the mercy of a brutal attack by the Lethal Legion, paralyzed and unable to defend himself. Will his team be able to get to him in time, or is it the end of the line for the world's fastest Avenger?
