**CAPTAIN
BRITAIN**
KNEELS TO
THE KING

MEAD
JAN

For the White Witch!

Damn your witch.

HK!

She is but a woman hidden in a tower--I am a witch!

My lady!

Word from the castle--we must fall back.

The blast came from outside this realm and shattered the stones like they were nothing.

And the flowers...they've begun to knit the castle back together...

It's him.

Apocalypse and his witchbreed forces!

We are not *his*. We are our own, and I am Otherworld's true defender.

Surrender,
Morgan Le Fay.

Tell 'em,
Bets.

I'm fulla his
bad attitude
and looking to
let it loose.

Shogo and I
are staying up
high--no dragonfire,
but we'll try to be
distracting!

I'm takin' you off 'a those horses.

Horses didn't do nothin' to deserve gettin' a beatdown.

Rogue!

Stay with
me, please,
chère?

Gambit,
honey, I feel
great.

I've never
needed you
to worry about
me *less*.

WHOOOM

Run!

There's nowhere to run!

What do you run on? Where do you run to?

KKKKKK

I am the road beneath you.

KRRRAK

I am the earth beneath the road!

I am everywhere you have ever stood.

WHOOOM

Careful, Rictor! You all right?

CLANG

Never better. This place is wild.

You get Brian yet?

He's within the tower--

Lemme help.

RUMMBLLE

Destroy them.

Soak the soil in witchbreed blood! Push them back to their pathetic island. Do not let them encroach onto the Kingdom of Avalon!

To me, Excalibur!

Rictor! C'mon--Shogo and I'll set you down on the ground behind them.

If they can't stand, they can't march!

They're coming fast.

Gambit and I'll stay here with you--he'll stay low, I'll go high and you take point and go between?

You ready, Bets?

Indeed. Shields up!

After the first volley, we move forward while the front line reloads!

Symphonic strategy, my captain.
