

# X-FORCE

## >> MISSION BRIEF

A terrorist attack known as the Alexandria Incident used a weaponized mutant to claim 3,000 lives. In response, Cable re-formed the mutant black ops team X-Force to ensure that mutantkind not only has a continued place in the world, but also a stake in it.

After infiltrating the Yellow Eye facility, Fantomex's mind snapped. Driven by his inborn need to be superior, he attempted to take out X-Force before he was subdued by Domino. The team, turning on the villain at the head of Yellow Eye, discovered that he was, in fact, longtime X-Men foe Mojo. Attempting to fracture the team, Mojo revealed to them that MeMe is actually Hope, Cable's daughter, channeling the real MeMe's powers. Interrupting the ensuing argument, X-Force was attacked again by Fantomex. Using the nanites in his brain, Fantomex digitized Volga's weaponization procedure, granting him new abilities that allowed him to flatten X-Force effortlessly.
