

JUSTICE, LIKE LIGHTNING... THUNDERBOLTS

Bucky Barnes was Captain America's sidekick during World War II...until he got blown up, captured by the Soviets and turned into the deadly Winter Soldier. Now he has Nick Fury's old job as the Man on the Wall, protecting Earth from unseen threats.

The Thunderbolts were bad guys pretending to be good guys...until some of them realized they actually liked being good guys. But their checkered pasts landed them in Pleasant Hill, S.H.I.E.L.D.'s reality-bending super-prison. Bucky broke them out on the condition that they protect Kobik (the sentient Cosmic Cube that created Pleasant Hill) and help him with his mission.

Bucky got captured by S.H.I.E.L.D. while trying to protect his best friend, Captain America, from a horrible fate. Steve is safe, but what Bucky doesn't know is that Steve's also been turned into an undercover Hydra agent by Kobik, who he's now determined to find. Can the Thunderbolts break Bucky out before Steve breaks him? And can Songbird survive her return to her old team?
