

# X-MEN

A CELEBRATION OF MUTANTS & MUSIC

*Previously in X-Men '92...*

The X-Men! Mutants born with incredible powers and abilities, brought together by Professor Charles Xavier to protect a world that hates and fears them; dedicated to opposing those who might forcefully stand above mankind. In the years since their formation, the X-Men have managed to change the perception of mutants. No longer seen as the next step in human evolution, they are a valued partner in humanity's steps towards a better tomorrow.

But conflict still exists, and after a period of peace following the disastrous Westchester Wars, the X-Men now find themselves facing their greatest challenge yet...one from beyond the stars.
