A DISH BEST SERVED GROSS.

Jake, have you ever eaten something that had the taste of ADVENTURE?

There was that time I cracked open a durian and no one would speak to me for three weeks.

Story by Josh Tierney

I still have some left if you're interested.

No, I mean like a **dog fart salad** - something you wouldn't want to eat unless a big deal was made of it, like you had to eat the salad to save the life of your friend.

You saying you want me to fart in your salad, Finn?

Heck no, but that's the point! What wouldn't you want to eat unless you were forced to?

Gee, this is hard. Everything's edible under the right circumstances.

Raw chicken served on a bed of soggy cereal.

Now you're talking!

How about cat hair hamburgers spiced with dandruff!

Soy sauce-filled kiwi skins!
