

GENOSHA.

ATLANTIS!
FREE THEIR
MINDS.

BRRRRTT
BANG
BANG
BANG
BRRRRTT

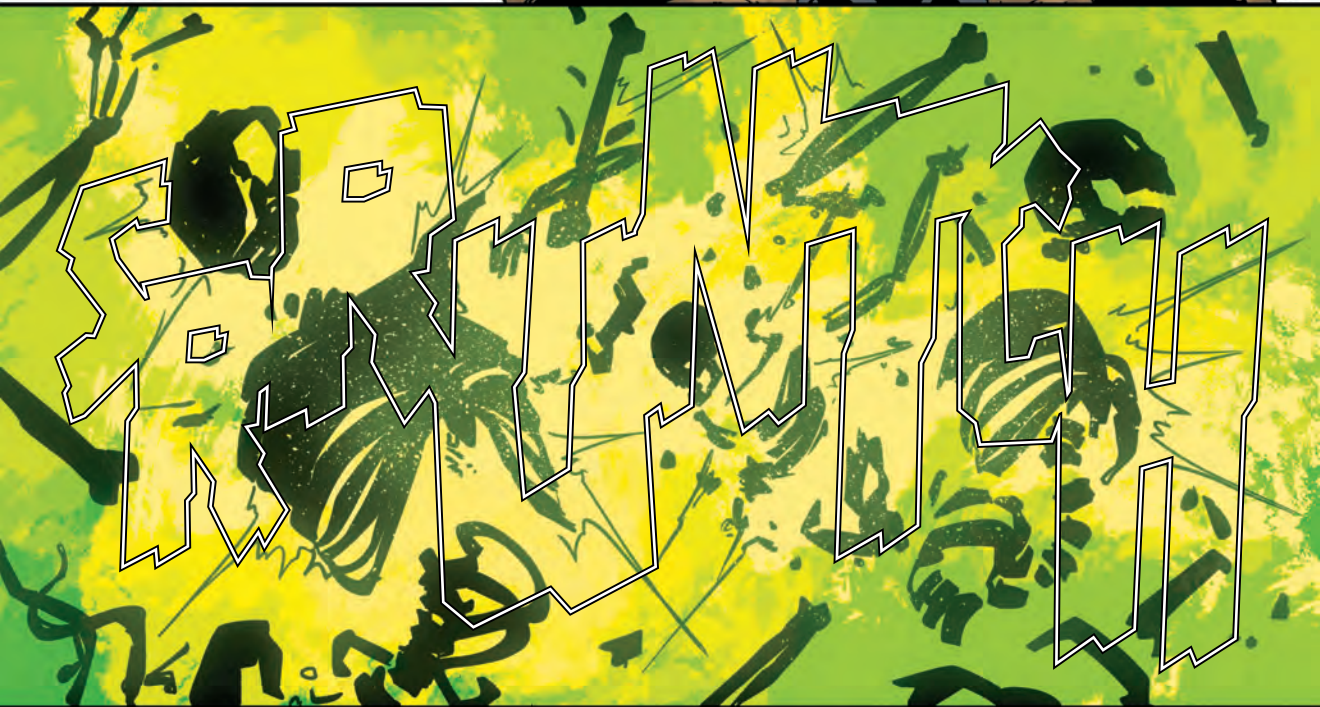

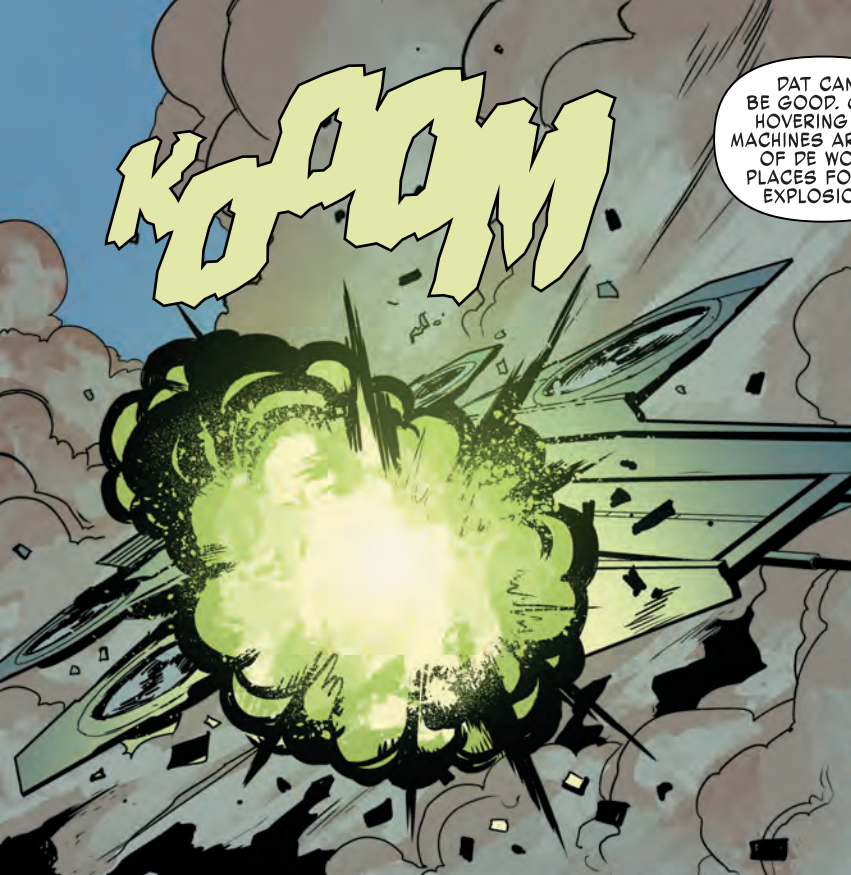

X-MEN.
AVENGERS. WE
NEED TO GET CONTROL
OF THAT HELICARRIER,
AND WE NEED TO LURE
CASSANDRA OUT
IN THE OPEN.

JEAN?

"SHE'S
OUT."

DAT CAN'T BE GOOD. GIANT HOVERING WAR MACHINES ARE ONE OF DE WORST PLACES FOR BIG EXPLOSIONS.

I'M CONNECTED TO THE SHIP'S SENSORS. ONE OF THE SIX NUCLEAR REACTORS WAS JUST BREACHED.

THE CARRIER IS IN CATASTROPHIC FAILURE.

SHE'S BRINGING THE ENTIRE THING DOWN ON GENOSHA!

GAMBIT. YOU KNOW EXPLOSIONS. WHAT ARE WE TALKING?

SIX NUCLEAR REACTORS...

ONE ALREADY COMPROMISED... DAT MUCH IMPACT...

IT'S GONNA GO BOOM AN DEN THERE'LL BE A WHOLE LOT OF NOTHING WHERE THERE USED TO BE AN ISLAND AND US.

THE PROBLEM IS THE AMOUNT OF RADIATION COMING OUT OF THE BREACHED REACTOR. WE CAN'T GO NEAR IT OR--

KURT.

CAN YOU TAKE ME UP THERE, PLEASE?

WHAT PART OF "WE CAN'T GO NEAR IT" DID YOU--?
