DOCTOR DOOM

Born to a poor nomad and an ill-fated witch, Victor Von Doom used his talent for combining sorcery and technology to take over the European country of Latveria. Over the years, Doom has wielded his power for great good and great evil.

Recently, an international program called the Antlion Project was developed to solve climate change by creating a black hole on the moon. Believing the project to be dangerously flawed, Doom publicly condemned the Antlion--which meant when Latverian missiles struck the facility, killing nearly 3,000 people, he became the prime suspect.

Doom willingly surrendered, hoping to prove his innocence--but mysterious visions of a peaceful future with a loving family had been haunting him, and when Kang appeared and confirmed that these glimpses were more than just dreams, Doom escaped custody.

The Fantastic Four sent a H.E.R.B.I.E. unit to recruit Dr. Adam Brashear--A.K.A. Blue Marvel--to track down Doom. Meanwhile, Morgan Le Fay led a fugitive Doom to the Witness to try to make sense of his visions, but before Victor could get answers, he was shot dead by a sniper!
