

After surviving the Wastelands, a future where villains rose up and took over the world, Old Man Logan awoke in the present, determined to prevent the deaths of his wife and children. Although he's accepted his past, he is still haunted by his lost family.

While hunting for Lady Deathstrike in Japan, Logan was captured by a group of warrior monks known as the Silent Order. A young boy, leader of the monks, envisioned Logan's fatal encounter with the monks in the dystopian future, the Wastelands. To prevent his own death and the demise of the Silent Order, the young boy unleashed a telekinetic blast that overpowered Logan.

Now Logan must claw his way back to survival and save his enemy, the young boy, as well.
