

is the City of Lost Girls.

The other guys think you're catatonic. Means they think you're █████ up.

I don't think that. I think you're scared. So I just want to go back to the beginning. Can we do that?

Nah, we can't do that. 'Cause that █████ jodido.

That █████ is what the Duchess calls-

Straight █████ up.

I love the Duchess curses. I love cursing.

QUIT IT.

My best friend Eyepatch and me, we're like Orphan girls here.

Duchess says we're all orphans. Says she'll tolerate Eyepatch but reminds me-

We got too many scared women up here to worry about the past, Analia. We ain't got time for that. Nostalgia is a [redacted] assassin. You hear me?

'Cause far off in the heat are monsters.

They been hunting you since you were 14. Been smelling you since you were even younger.

See, your ass is MEAT.

And that ████ good. 'Cause meat is a lure. Meat is what makes these mother ████ show themselves.
