Runaways

When they were younger, Nico Minoru, Chase Stein, Gertrude Yorkes, Karolina Dean, Molly Hayes and Alex Wilder became friends through circumstance: hanging out once a year every year while their parents had what they claimed was a dinner party. Then trauma made them a family: they ran away together after discovering their parents were actually murderous super villains. The Runaways learned to use powers and resources inherited from their parents, and returned to defeat them. The kids won, but they didn't all survive.

Two years after Gert's murder, Chase used her parents' time machine to rescue her from the moment of death and brought her (with a nearly-fatal stab wound) to Nico's apartment in the present. Nico frantically combined magic spells to heal her, but once Chase and Nico caught Gert up, she was reeling over the dissolution of the Runaways. Reuniting with her Deinonychus, Old Lace, helped, but Gert still wanted to mourn Victor by burying his belongings...except what they thought was a box of his personal effects actually contained his head-in pristine condition.

How happy is
Karolina Dean?

SO HAPPY.

Like, the
happiest.

picture yourself in a boat, on a river

She's in college
now. And she loves
her classes.

She loves her
roommate.
She loves her
therapist.

She has the
kindest, most
beautiful, best
girlfriend.

And if sometimes Karolina
thinks about her old life, and
her old friends, and her super
villain parents, and the fact
that she maybe triggered
an interplanetary war...

Runaways Find Your Way Home pt III

Well, her therapist has given her a lot of tips for staying in the present.

Breathing helps.

And affirmations.

"I am a good person."

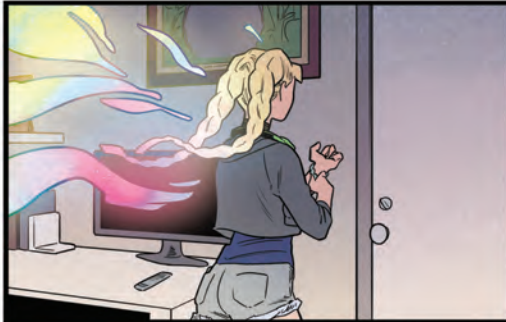

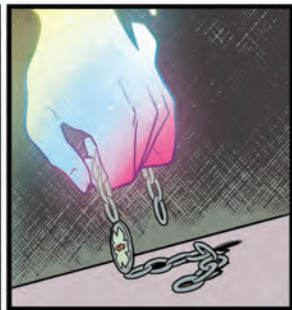

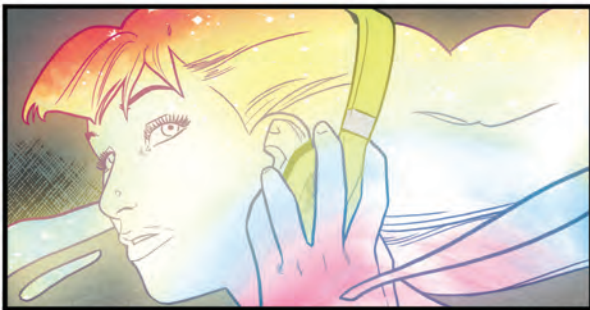

"I am my own person."

"My parents' decisions don't define me."

"I forgive myself for the mistakes I made when I was too young to know any better."

"I'm allowed to be happy."
